

**INTERNSHIP: THE SOUNDS CONSERVANCY MARINE PROGRAM
QLF CANADA OFFICE, MONTREAL, QUEBEC**

The Quebec-Labrador Foundation (QLF) is seeking one Intern to work on The Sounds Conservancy Marine Conservation Program, a marine research program along the Sounds, estuaries, and coastal waters of southern New England and New York from Long Island Sound north to Nantucket Sound. The Intern will work out of the QLF Headquarters in Ipswich, Massachusetts, just north of Boston.

The program is designed to secure the conservation and preservation of its marine resources through a small grants program in support of marine education, research, advocacy, and conservation. Each year, The Sounds Conservancy provides up to thirty small grants in support of marine research, conservation and stewardship, and environmental education. Grantees are affiliated with some of the leading universities and organizations along the Sounds to include: University of Connecticut, Avery Point; Yale School of Forestry and Environmental Studies; University of Rhode Island; and the American Museum of Natural History; Audubon (Massachusetts and Rhode Island); and Woods Hole Oceanographic Institution.

Each summer, an Intern with The Sounds Conservancy will write narratives of the research of each grantee, which is added to an electronic publication that documents the program's work over the last two decades. As well, an Intern (working with a Webmaster) will provide the narratives of each 2015 grantee to the program's interactive website and facilitate online meetings and new partnerships among grantees.

QLF is seeking one university student who is willing to work hard to fill this Internship. Nature enthusiast is a benefit. Skill set includes writing; editing; program logistics; facilitation; program implementation, and evaluation.

*Preferred Language: Must be Fluent in English.
Dates of Internship: 6 weeks TBD June – July 2019
Application Deadline: March 15th, 2019*
